RE: **REQUEST FOR CONFIDENTIAL TREATMENT** - *Connect America Fund*, WC Docket No. 10-90;
Lifeline and Link Up Reform and Modernization, WC Docket No. 11-42

Request that Information Submitted to the Commission be Withheld from Public Inspection Pursuant to 47 C.F.R. §0.459 and 5 U.S.C. §552(b)(4): Five-Year Service Quality Improvement Plan included in FCC Form 481

Confidential Financial Information - Subject to Protective Order in WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket No. 10-208, Before the Federal Communications Commission

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, XIT Rural Telephone Cooperative, Inc. (the Cooperative), Study Area Code 442170, is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket Nos. 10-90 and 11-42. The Cooperative, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan and (2) the financial annual report, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan is being made pursuant to section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's November 16, 2012 *Protective Order* in WC Docket No. 10-90 *et al.* These attachments contain competitively sensitive data that XIT Rural Telephone Cooperative, Inc. maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Cooperative.

Five-Year Service Quality Improvement Plan

Pursuant to section 0.459 of the Commission's rules and Exemption 4 of FOIA, XIT Rural Telephone Cooperative, Inc. requests that the text and data extracted from its five-year service quality improvement plan be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Cooperative keeps confidential. Public availability of this information would have a substantial negative impact on the Cooperative.

In accordance with section 0.459 of the Commission's rules, the following information is provided in support of this request:

- (1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 - Five-Year Service Quality Improvement Plan. Specifically, confidential treatment is sought for all information in the five-year plan related to the Cooperative's access line counts, existing broadband capabilities, and its network investment plans through 2019 that will improve service quality for its customers.

- (2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket Nos. 10-90 and 11-42 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a five-year service quality improvement plan, pursuant to 47 C.F.R. §§54.202(a)(1)(ii) and 54.313(a)(1).

- (3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan contains granular information on the Cooperative's access line counts and existing broadband capabilities as well as detailed plans for financial investments in its network through 2019 to improve service to subscribers. This is closely guarded, privileged information that the Cooperative does not make publicly available.

- (4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more wireless Internet service providers. Most RLECs also face competition from at least one other wireline broadband provider such as a larger cable company, who will typically seek to "cherry pick" the lower cost portions of the study area. In addition, all RLECs face competition throughout their territories from satellite broadband providers.

Ms. Marlene Dortch
June 25, 2014
Page 3

(5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan would provide competitors with detailed, granular information regarding the Cooperative's access line count, its existing broadband capabilities, and its strategic plans for network investments. This would give competitors invaluable confidential information with which to develop their own strategies for investing in the service area, thereby bringing substantial competitive harm to the Cooperative.

(6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Cooperative has continually treated the extracted information in its five-year plan as confidential and carefully controls the information to protect it from competitors. Access to the information is limited to employees that require it and to non-employees with confidentiality obligations such as lenders, consultants, auditors, and attorneys. In addition, when such information is required to be submitted to a state regulatory authority it has been filed as confidential information, not available to the public.

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan is not available to the public, and third party access is limited as described in (6) above.

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Cooperative requests that the extracted information be withheld from public inspection indefinitely. Although the information reflects the Cooperative's service improvement plans for a five year period, it would provide a very useful baseline for competitors for several years beyond that period.

(9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

Financial Annual Report

Section 3005 of FCC Form 481 requires a privately-held rate-of-return carrier receiving high cost support to attach a full and complete annual report of the Cooperative's financial condition and operations pursuant to 47 C.F.R. §54.313(f)(2). XIT Rural Telephone Cooperative, Inc. seeks confidential treatment of its financial annual report pursuant to the November 16, 2012 *Protective Order* in WC Docket No. 10-90, *et al.*¹ The *Protective Order* specifically covers information filed pursuant to 47 C.F.R. §54.313(f)(2).

¹ *Connect America Fund et al.*, WC Docket No. 10-90 *et al.*, *Protective Order*, DA 12-1857 (rel. Nov. 16, 2012).

LINE 112 – FIVE-YEAR SERVICE QUALITY IMPROVEMENT PLAN

Following is the initial five-year service quality improvement plan for XIT Rural Telephone Cooperative, Inc. ("XIT" or "the Cooperative") pursuant to 47 C.F.R. § 54.202(a)(1)(ii) that requires an eligible telecommunications carrier (ETC) to describe proposed improvements or upgrades to the ETC's network throughout its service area. The *USF/ICC Transformation Order* establishes a public interest obligation for rate-of-return ETCs to provide broadband service at speeds of at least 4 Mbps downstream and 1 Mbps upstream (4:1) "upon reasonable request." A service quality improvement plan cannot project where in the service area reasonable requests will be made. However, the proposed service improvements in this plan result in the availability of 4:1 or better service to a greater portion of the Cooperative's service area than is currently available.

Although this plan is a good faith effort by the Cooperative, it is subject to change, given the uncertainty faced by ETCs regarding whether capital investments will be recoverable over the five year planning horizon. Factors that may affect the capital improvements plan include erosion of the customer base due to competition, alternative technologies, economic conditions in the service area, and unpredictable changes in the universal service support amounts an ETC receives.

XIT owns and operates seven exchanges serving subscribers in the northern Texas Panhandle. The service area includes portions of Dallam, Hartley, Oldham, and Sherman Counties. This service area covers approximately 3,264 square miles.

LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

XIT Rural Telephone Cooperative, Inc. complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

Service quality standards for voice service are established by the state commission. The Cooperative consistently meets or exceeds those standards and provides reports to the state commission, in accordance with the state commission's rules.

The Cooperative complies with any and all consumer protection obligations under state law.

The Cooperative also complies with the following consumer best practices: (1) the Cooperative discloses its rates and terms of service to customers; (2) the Cooperative provides specific disclosures in its advertising; (3) the Cooperative separately identifies carrier charges from taxes on its billing statements; (4) the Cooperative provides ready access to customer service; (5) the Cooperative promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Cooperative abides by policies for protection of consumer privacy.

Finally, the Cooperative has a policy and established operating procedures that comply with the FCC's Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011). Certification of the Cooperative's compliance with CPNI rules and a description of the Cooperative's operating procedures that ensure compliance are filed annually with the FCC.

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

XIT Rural Telephone Cooperative, Inc. is able to function in emergency situations for both voice and broadband service. The Cooperative has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are supplied at the central office, remote switch sites, and repeater sites to ensure functionality without an external power source until power is restored. The network is capable of managing traffic spikes resulting from emergency situations.

The Cooperative is able to reroute traffic around damaged facilities. Although the Cooperative's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's most recent reasonable comparability benchmark for voice services is \$46.96, which includes the federal subscriber line charge ("SLC").¹

In the exchanges served by XIT Rural Telephone Cooperative, the highest single-line residential local rate, including any mandatory extended area service charge, is \$14.40. When the federal SLC and the state universal service fee are added, the total is below the reasonable comparability benchmark of \$46.96.

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

XIT Rural Telephone Cooperative (the Cooperative) offers Lifeline subscribers applicable federal and state Lifeline discounts to a stand-alone residential local exchange access line rate. The local exchange access line rate includes an unlimited number of local calling minutes. Additional charges for toll calls associated with the stand-alone residential access line are billed at the rates of the long distance carrier chosen by the subscriber. Lifeline customers may subscribe to packages and custom calling features at the standard rates offered to all customers, in which case the Lifeline discounts will apply to the portion of the package that is for a stand-alone basic residential local exchange access line rate. The attached pages from the Cooperative's Member Services Tariff include the terms and conditions for Lifeline and the rates for local exchange service.

IV. LIFELINE PROGRAM (Continued)

A. General (Continued)

5. The Cooperative may not disconnect the service of a Lifeline Program customer for the non-payment of toll charges. However, the Cooperative reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills. The Cooperative will inform the customer, by direct mail, of this change to their service due to the customer's non-payment of toll charges. Upon the customer's payment of all outstanding toll charges, the Cooperative shall remove mandatory toll blocking at no charge.

6. Upon subscribing to the Lifeline Program, a customer will be offered a subscription, at no charge, to toll blocking service (in exchanges where technically available) which denies the customer access to the long distance telecommunications network; however, the customer is under no obligation to accept the subscription to toll blocking.

7. The Lifeline Program rate reductions will not be available on a retroactive basis unless approved by the Public Utility Commission of Texas or the Low-Income Discount Administrator (LIDA).

B. Designated Lifeline Program Services

The Cooperative shall offer voice telephony services that provide the following functionalities as designated Lifeline Program services:

1. Voice grade access to the public switched network or its functional equivalent
